

SHASTIKA B

Tiruchirappalli, Tamil Nadu | shastika.balakumar@gmail.com | 8098068023 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Motivated B.Tech Computer Science and Engineering student at Dhanalakshmi Srinivasan University Tiruchirapalli with hands-on full-stack development experience from an internship at CopterCode. Skilled in Python, Flask, full-stack web development, database management, and leveraging AI-powered coding agents. Proven hackathon participant and developer of real-world role-based web applications, data dashboards, and agricultural supply chain solutions.

TECHNICAL SKILLS

Category	Skills
Languages & Web	Python, Flask, Full-Stack Web Development (Frontend & Backend), HTML/CSS, JavaScript
Databases & Tools	SQLite, MySQL, Git, GitHub, Visual Studio Code (VS Code), Microsoft Azure Essentials
AI & Automation	GitHub Copilot, Cursor, AI Coding Agents, Claude AI, Gemini AI, ChatGPT

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern

CopterCode | June 2026 – July 2026

- Collaborated with engineering and R&D teams to design and implement frontend and backend components for an **Internship Management System**.
- Developed scalable backend services, integrated APIs, and designed user-friendly interfaces.
- Performed debugging, testing, and performance optimization to ensure reliable application delivery.

TECHNICAL PROJECTS

- Farm2Fork (F2C) - Direct Agricultural Supply Platform:** Architected a platform to connect local farmers directly with consumers, cutting out intermediaries to increase net grower income by 30-40%. Built using HTML/CSS/JavaScript, Python backend logic, and SQLite/MySQL databases with a scalable community-adoption model.
- College Assignment & Portal Dashboard:** Engineered a role-based web application using Flask (Python) and SQLite featuring secure authentication, dynamic session management, and dedicated student/faculty dashboard views.
- Internship Management System (CopterCode):** Developed core workflow tracking features and managed end-to-end component integration during live project tenure.

- **College Bus Live Tracking System:** Developed tracking simulation logic in Python within VS Code to monitor and manage real-time route transportation.

HACKATHONS & COMPETITIONS

- **Smart India Hackathon (SIH):** Selected at the institutional/college level, contributing innovative software conceptualization, rapid prototyping, and collaborative problem-solving strategies.
- **"Celestia" PPT Competition (Feb 2026):** Presented technical research on "Lasers in Medical Technology" under Club Electra at DSU.

CERTIFICATIONS

- **AI & Coding:** AI Pair Programming & AI Coding Agents with GitHub Copilot and Cursor (LinkedIn Learning), Claude AI: Master Context Engineering (NoviTech).
- **Data & Cloud:** Data Analyst Bootcamp (Trionix), Microsoft Azure Essentials, Python Programming 01 & 02 (Infosys).

EDUCATION

Dhanalakshmi Srinivasan University (DSU), Tiruchirappalli

Bachelor of Technology (B.Tech) in Computer Science and Engineering | Expected Graduation: 2029

Academic Performance: Semester 1 CGPA: 8.84
